

GONZALO GARZÓN

Civil Engineer | AutoCAD Drafter | Remote Construction Documentation Specialist
tatogarzon94@gmail.com | linkedin.com/in/gonzalogarzon | tatogarzon.github.io/GG-Portfolio
Córdoba, Argentina (GMT-3) — Available for remote work with US-based teams

PROFESSIONAL SUMMARY

Civil Engineer with 7+ years of experience in building construction, technical drafting, and project coordination. Specialized in AutoCAD 2D drafting, as-built documentation, quantity take-offs, and multi-disciplinary coordination across structural, architectural, and MEP systems. Led construction of multi-story residential buildings (10+ floors) from groundwork to handover, managing subcontractors, procurement, and site quality. Based in Córdoba, Argentina — available for remote CAD drafting, BIM coordination, and construction documentation roles with US-based firms. Actively developing AI skills to enhance technical workflows.

CORE COMPETENCIES

- AutoCAD — 2D drafting (Advanced) - As-built drawings & redline mark-ups - Revit BIM modeling (Intermediate) - RAM Elements — structural analysis (Adv.)	- Quantity take-offs: structural, arch., MEP - Construction documentation & RFI mgmt. - Multi-disciplinary drawing coordination - Structural drafting: RC slabs, beams, rebar	- Project scheduling & subcontractor coord. - Quality control inspections & compliance - Excel: PivotTables, Macros Google Workspace - Remote collab.: Zoom, Slack, MS Teams

PROFESSIONAL EXPERIENCE

Independent Business Owner — Distribution & Logistics

Mar 2025 – Present

Self-Employed | Córdoba, Argentina

- Manages wholesale and retail distribution operations: supplier negotiations, inventory control, pricing strategy, and client acquisition
- Coordinates end-to-end logistics and delivery across the Córdoba region, applying project management skills from engineering practice
- Runs lean operations independently, developing strong business acumen and self-management discipline

Technical Drafting Support — Property Maintenance

2025

Aurent Property Management | Melbourne, Australia

- Updated AutoCAD plans and condition report diagrams based on field measurements and site inspections
- Revised architectural drawings to reflect as-built conditions for accurate property records

Civil Engineer & Construction Site Manager

Dec 2018 – Mar 2025

DYCSA – Diseño y Construcciones S.A. | Córdoba, Argentina

- Managed end-to-end construction of multiple multi-story residential buildings (10+ floors each), overseeing structural, architectural, and MEP phases from foundation to handover
- Produced and maintained 100+ AutoCAD drawings per project: floor plans, elevations, structural sections, rebar schedules, construction details, and as-built redlines
- Performed comprehensive quantity take-offs for concrete, reinforcement, masonry, and MEP systems, supporting accurate budgeting and reducing material waste
- Coordinated multi-disciplinary drawing reviews with structural engineers, architects, and MEP contractors — identifying and resolving clashes to keep projects on schedule
- Supervised 20+ on-site workers and multiple subcontractors; developed and tracked work schedules and resource allocation plans in Excel
- Managed material procurement from 10+ suppliers, coordinating deliveries aligned with construction milestones

- Maintained complete project documentation: QC inspection reports, structural compliance records, and contractor completion certificates

EDUCATION

Bachelor of Civil Engineering

Graduated 2023

Catholic University of Córdoba (UCC) | Argentina

CERTIFICATIONS & ONGOING TRAINING

- AI Fundamentals — Anthropic (in progress, 2026)
- IELTS General Training – B2 Level (internationally recognized English proficiency)
- Cambridge First Certificate in English (FCE)

TECHNICAL SKILLS

CAD & BIM: AutoCAD (Advanced), Revit (Intermediate), RAM Elements (Advanced), Robot Structural Analysis (Intermediate)

Project Management: Quantity take-offs, as-built documentation, RFI coordination, schedule development, procurement management

Productivity: Microsoft Excel (PivotTables, Macros), Google Workspace (Sheets, Docs, Forms), Microsoft Office Suite

Programming & IT: Python/Django, Git/GitHub, HTML/CSS (Basic), AI tools (Anthropic Claude, ChatGPT)

Remote Tools: Zoom, Slack, Microsoft Teams, Google Meet

LANGUAGES

Spanish — Native | English — Advanced (IELTS B2 Certified) | Portuguese — Intermediate

ADDITIONAL

- Based in Córdoba, Argentina (GMT-3) — full overlap with US Eastern and Central time zones
- Available for remote full-time, part-time, and freelance project-based engagements
- Open to Upwork, Toptal, Freelancer, and direct company contracts
- Portfolio: tatogarzon.github.io/GG-Portfolio
